DISCLOSURE
Each participant in the Annual Meeting is required to disclose if he or she has received something of value from a commercial company or institution, which related directly or indirectly to the subject of their presentation. The Academy has identified the options to disclose as follows:

- 1 = Royalties from a company or supplier
- 2 = Speakers bureau/paid presentations for a company or supplier
- 3A = Paid employee for a company or supplier
- 3B = Paid consultant for a company or supplier
- 3C = Unpaid consultant for a company or supplier
- 4 = Stock or stock options in a company or supplier
- 5 = Research support from a company or supplier as a PI
- 6 = Other financial or material support from a company or supplier
- 7 = Royalties, financial or material support from publishers
- n = no conflicts disclosed

An indication of the participants' disclosure appears after his or her name as does the commercial company or institution that provided the support.

The Academy does not view the existence of these disclosed interests or commitments implying bias or decreasing the value of the author’s participation in the meeting.

DISCLAIMER
The material presented at this course has been made available by the AAOS for educational purposes only.

The AAOS disclaims any and all liability for injury, loss or other damages resulting to any individual attending the course and for all claims, which may arise from the use of techniques and strategies demonstrated therein. The material is not intended to represent the only methods, procedures or strategies for the situations discussed. Rather, the course is intended to present an array of approaches, views, statements and opinions which the faculty believe will be helpful to course participants.
Some drugs or medical devices demonstrated in Academy educational programs or materials have not been cleared by the FDA or have been cleared by the FDA for specific uses only. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or device he or she wishes to use in clinical practice.
